## **BORO-BODOR AND THE BROMO**

This title is undoubtedly a puzzler to all who are not familiar with the great sights of the Island of Java in the Dutch East Indies. Most famous among the ancient architectural marvels of this fascinating Oriental Isle is the colossal carved pyramid known as the Boro-Bodor. It is one of the wonders of the World. The name means "Shrine of the Many Buddhas" and this vast shrine is in the form of a low pyramid completely covered with fantastic Buddhist carvings in high relief. The Bromo is one of the great natural wonders of Java—an active volcanic crater within a greater and practically extinct crater known as the "Sand Sea". Burton Holmes was fortunate enough to reach the Bromo during a period of picturesque activity.

### **For HOUSE ORGAN:**

Burton Holmes will show you two of the greatest sights of the Island of Java—the ancient carved pyramid of the Boro-Bodor, with its wonderful sculptural decorations and the active volcanic crater of the Bromo, smoking in the vast abyss of the "Sand Sea".
